VESA PC is mobile & mountable.

The VESA PC mounts to any size LCD monitor, including LCD touch-screens for kiosk applications.

VESA is an industry standard for both monitors and mounting devices. The VESA PC incorporates the VESA standard to insure seamless integration.

Autotime's VESA PC attaches to any VESA mounting fixture allowing it to be securely mounted onto desks, walls or buildings thereby optimizing your work area. VESA PC not only cleans up your valuable desk space but also reduces cabling. The VESA PC fan less design is WHISPER quiet and is ideal for the office, sensitive environments such as electronic or medical clean rooms, and areas where a fan less design is required.

VESA PC is available as a diskless (Flash Drive) Thin Client solution or with a 40GB Hard-Drive.

Lots of power, Little box.

- VGA Display 1024*768 or 1280*960
- AC97 Audio In/Out
- 10/100 Base T Ethernet
- 4 USB Ports
- 533MHz CPU
- 128MB RAM (Opt. 256MB)
- 40GB Hard-Drive
- Fan-Less / Low Power
- Optional Serial Port / GPS / Credit Card Reader / Video PIP

LCD Mount

Attach the VESA PC directly to **any size** LCD for a mobile system for use at trade shows, presentations and promotions. The VESA PC is as portable as a laptop but attaches to larger size LCDs.

Post Mount

Your VESA PC can be securely attached to a workbench or desk eliminating your old PC clutter thereby providing a larger desk area to improve your work-flow and efficiency.

Rail Mount

Support for multiple display for call center or video wall applications.

Supports up to three 19 inch displays.

Wall Mount

Securely mounts your VESA PC to shop floor, ware-house or office wall. Display information with your products using a slat wall mounted VESA PC.

Slat wall mount, great for retail.
